MAJOR INDUSTRY PROBLEMS

FOR DEVELOPERS

Launching games is difficult, lengthy and expensive. The industry is monopolized by big development houses.

FOR GAMERS

Gamers have no voice and limited ownership over virtual assets earned.

GAME MANAGEMENT

Gaming tournament management systems are controlled by enterprises.

OUR SOLUTIONS

FOR DEVELOPERS

Developers can now crowdfund game launches because they have access to a captive gamer community.

FOR GAMERS

Gamers now have control. They can loan, borrow, sell, trade their in-game assets.

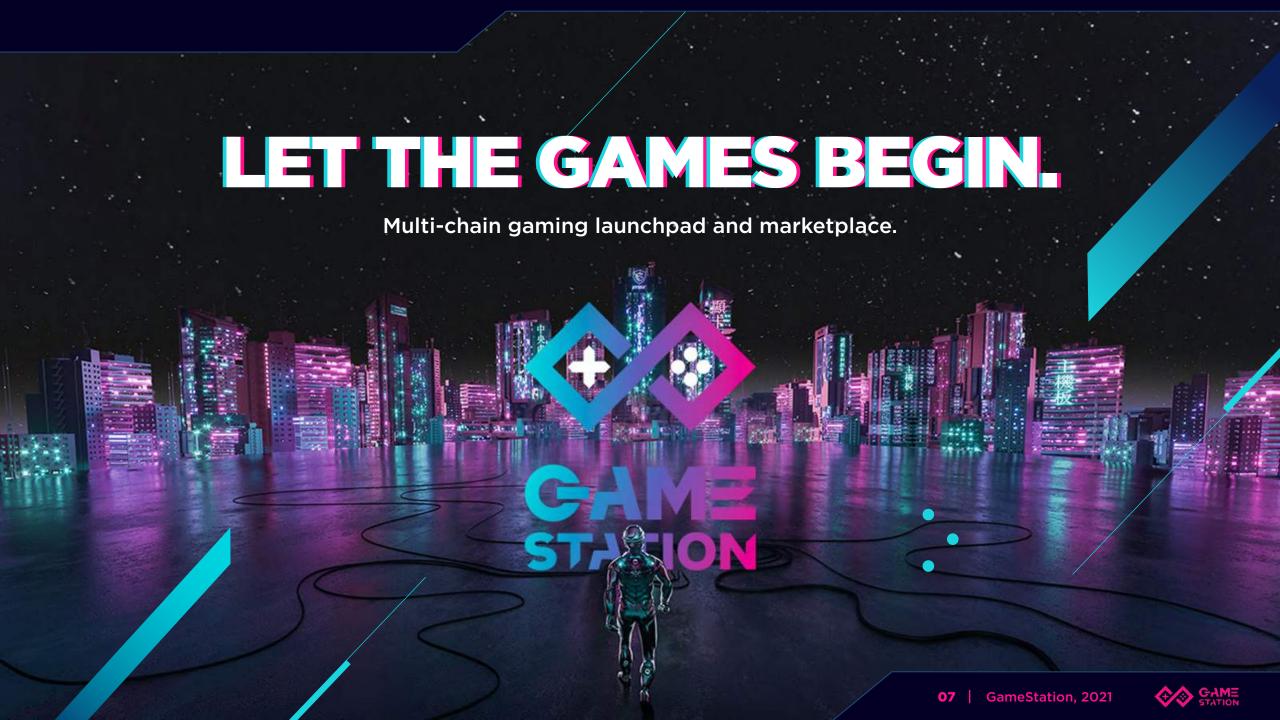

GAME MANAGEMENT

Decentralized game management systems are controlled by the gaming community.

WHY GAMESTATION?

- Solving problems for developers and gamers.
- Scalable tech for the new gaming industry.
- Experienced team.
- Early market entry advantage for Solana and Polygon blockchain technology .
- 2.7 billion gamers spend \$93.96 Billion per year.
- Self-sustaining technology and marketplace model.
- Tech-ready using Polkadot, Ethereum, Polygon, Solana and Binance Smart Chains.

PIONEERING DECENTRALIZED GAMING

- Multi-chain environment across Ethereum, Polygon, Solana, Polkadot and Binance Smart Chain.
- Gaming assets owned by gamers with a financial value.
- Blockchain and tokenised events launchpad to finance game development.
- Gamified airdrops and token rewards including auto token staking and burns.
- Increased game engagement through economical incentives.

UNLEASHING RAW GAMER PASSION

The core idea of Gamestation is to empower independent game developers and gamers. We do this by enabling game developers to fund their ideas without giving away equity or IP.

The Gamestation launchpad and marketplace encourage community growth and interaction between developers and gamers that have a stake in their gameworld.

EMPOWERING GAME DEVELOPERS

Gamestation is the world's premier blockchain-based crowdfunding launchpad and marketplace that helps game developers fundraise with direct access to a captive audience of gamers.

KEY FEATURES

Funding for game development

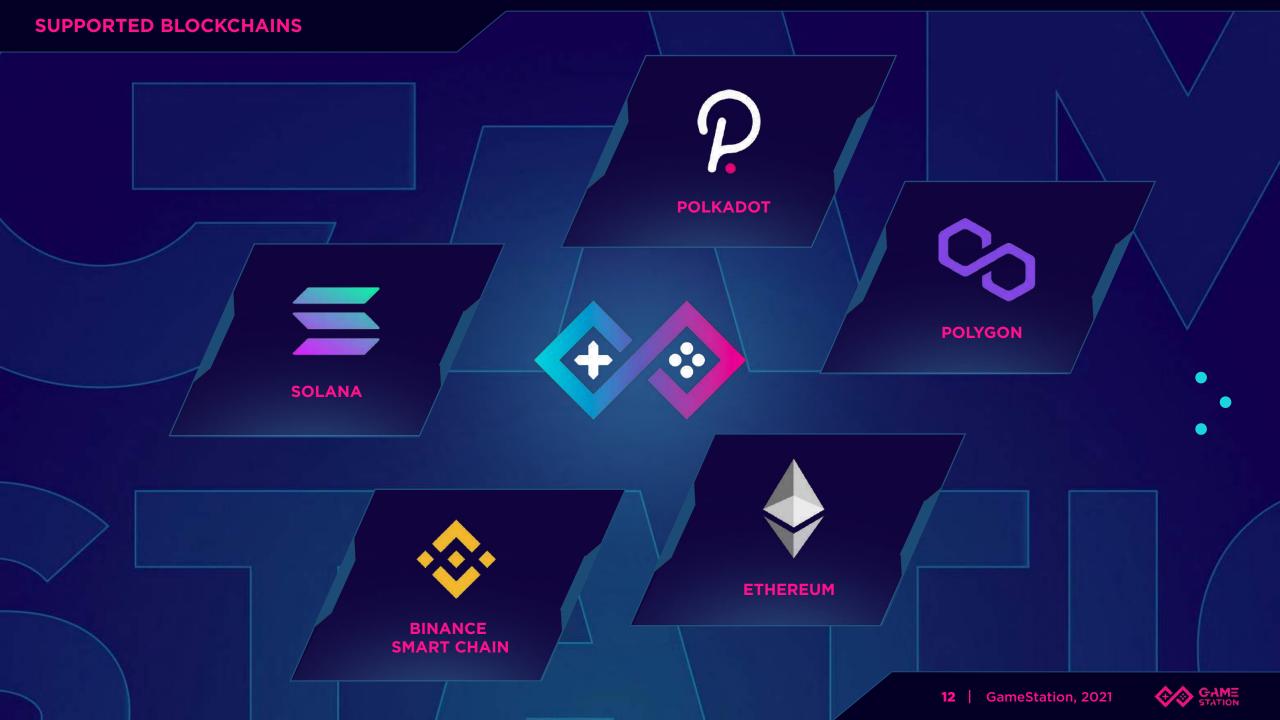

Seamless solutions for game developers

Additional revenue streams

Gamers own their gaming assets

A marketplace to loan, borrow, sell and trade assets

Event system for players and communities

POWERED BY

Mantra Dao is a community-governed DeFi platform focusing on staking, lending, and governance. As part of the Mantra Dao ecosystem, their launchpad Zendit is one of the top 3 launchpads in the DeFi market, leveraging the wisdom of the crowd to create a community-governed, transparent, and decentralized ecosystem.

As part of the strategic partnership, GameStation will have access to Mantra Dao's proprietary launchpad technology, which will expedite our go-to-market roadmap!

CONVENTIONAL MODEL

At present, it takes a long time to develop a game. It costs millions of USD and it is very difficult to attract gamers. Developers end up with very little and gamers are at the mercy of the enterprises that own the games.

I have an idea!

I'm Interested in funding a project

You need me to get to the gamers – I want more

I want to play quality games.

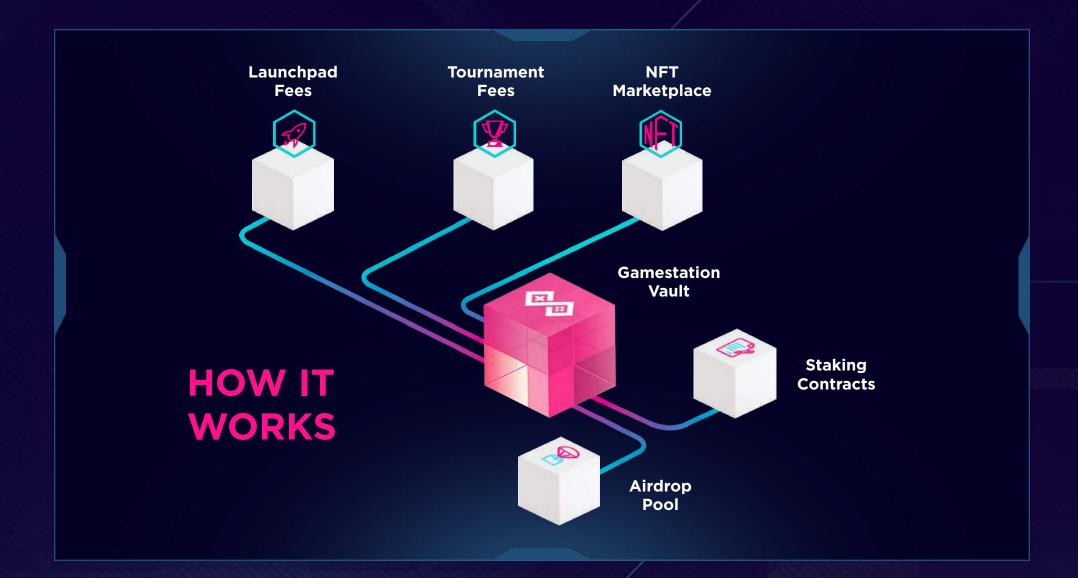

Gamers can sell, share, loan, borrow and exchange their game assets. They can also invite friends to play the new game and so much more. Gamer growth leads to asset market cap growth. This benefits everyone.
